Tax” or “Taxes” means any federal, state or local excise, gross receipts, value added, sales, use or other similar tax, fee, tax-like fee or surcharge of whatever nature and however designated, imposed or sought to be imposed, on or with respect to purchases by Customer or for the Company’s use of public streets or rights of way, which the Company is required or permitted by law or tariff to collect from Customer; provided, however, that the term “tax” will not include any tax on the Company’s corporate existence, status, income, corporate property or payroll taxes.

The Company shall bill any and all applicable taxes, surcharges and fees, including, but not limited to: Federal Excise Tax; state sales tax; municipal taxes; gross receipts taxes; and any taxes, surcharges, fees, charges or other payments contractual or otherwise, for the use of public streets or rights-of-way, whether designated as franchise fees or otherwise. As permitted by law, the Company will recover from its Customers any such charges assessed directly against the Company. The Company will also bill the Customer the State Universal Service Charge and the Dual Party Relay Service Access Charge as approved by the South Carolina Public Service Commission. Such taxes or fees will be itemized separately on the Customer's invoice or billing detail. If the Customer fails to pay any taxes properly billed, the Customer will be solely responsible for payment of the taxes, and penalty and interest.

Taxes and surcharges assessed on bundled services are based upon a model configuration and standard pricing for the individual product elements contained within the bundle. Modifications to standard pricing or to the model configuration may result in changes to the allocation of the bundle price to specific product elements. Details are available upon Customer request.

Customer will ensure that no lien is attached to or allowed to remain on any asset of the Company as a result of any tax contest. Customer will indemnify and hold the Company harmless against any liabilities, damages, losses, costs or expenses arising out of such tax proceedings, including without limitation any additional taxes, interest, penalties and attorney’s fees.

## SECTION 5 - BUSINESS NETWORK SWITCHED SERVICES, (CONT'D.)

## 5.5 Virtual Telephone Number

(N)

## 5.5.1 Description

Virtual Telephone Number (VTN) service allows a Customer to obtain a telephone number from a rate center in which it has no physical location and associate it to a physical service location in a rate center other than where the telephone number is natively associated. Calls made to the VTN will traverse the PSTN and/or the Company's voice network and terminate to the Customer at the designated physical service location via the Customer's eligible voice service connection. VTNs may be assigned from the Company's Sonus supportable rate centers. The Customer must subscribe to an eligible voice service, and a minimum of one (1) local telephone number that is native to the rate center in which the service physically terminates must be assigned to the Customer. This telephone number is required for rating purposes in the event the Customer transmits a VTN on an outbound call. Calls made to the VTN will be charged to the caller and rated based upon the caller's local calling area and the normal local calling area of the VTN. Should the Customer transmit a VTN on an outbound call, the call will receive a local calling area based on the physical service location. Should the Customer transmit a VTN on a call made to 911, authorities will respond to the address of the physical service location. Unless the Customer purchases multiple trunk groups, all VTNs and ITNs will share all call paths associated with the eligible service to which calls are terminated in the order in which calls are received.

## 5.5.2 Maximum Rates and Charges

Rates are based upon the location where calls are physically terminated.

Monthly Recurring Charge Per Number	\$1.00

Nonrecurring Charge Per Number	\$5.00

## 5.16 Converged Voice Service

## 5.16.1 General

**tw telecom** Converged Voice Service is a flexible bandwidth bundled service consisting of local exchange service with selected features, a Long Distance and/or Toll Free usage allowance and the option of adding Internet Access and/or Virtual Private Network (VPN) service as specified in the Company's Private Line tariff.

All Converged Voice services include a fully managed integrated access device placed at the Customer premises. Services can be provided via a TDM interface (T1 or DS3) or via an Ethernet interface in a wide range of bandwidth options as shown in the pricing tables below.

The integrated access device provided by the Company is furnished with a separate, mandatory battery back-up. Although the Company owns and maintains the integrated access device as part of its system equipment, the separate battery back-up is purchased by the Customer and becomes its property and responsibility, including maintenance and replacement. The battery back-up is not part of the system equipment as that term is defined and used in this tariff. The cost of the non-optional battery back-up is included in the quoted charge for service. The Company will not be responsible for the maintenance or repair of the battery back-up. The Customer acknowledges that in the event of a power failure, the failure of the battery back-up system will result in loss of service, including 911 service, and that the Company bears no responsibility for such loss of service. The manufacturer of the battery back-up offers a warranty, but the Customer must take affirmative action to activate this warranty or it will not be effective. It is the Customer's responsibility to activate this warranty by following the instructions provided in the service order.

The Customer receives a long distance allowance which may be used for 1+ and/or toll free services, based on the call package purchased. ## SECTION 5 - BUSINESS NETWORK SWITCHED SERVICES, (CONT'D.)

## 5.16 Converged Voice Service, (Cont'd.)

## 5.16.1 General, (Cont'd.)

Additional Toll Services are provided pursuant to the Company's published tariffs and rate schedules.

The Customer must purchase a minimum of 4 and a maximum of 50 voice channels, which may be a combination of analog business lines and digital trunks, or analog business lines and PRI channels. Combinations of digital trunks and PRI channels are not available. Only one trunk group may be provisioned per service location. The Customer must select a call package based upon the desired number of simultaneous calls (voice channels). The remaining available bandwidth, including excess bandwidth available when all voice services are not in use, will be dynamically allocated to Internet access and/or VPN services depending on the bundle purchased. Some combinations of voice services may be unavailable due to equipment limitations. Applications where more than 10% of daily call volume is used for faxing or other modem related activities are not supported.

The Customer who adds VPN service to a Converged Service bundle will have the option of upgrading to a Premium bundle by adding Class of Service (CoS), as described in the Company's Private Line tariff, for an additional charge. Adding CoS will reduce the number of voice channels available at a given bandwidth.

For the Customer who selects line based channels, the Deluxe Feature Package defined in Section 4.20.3 is available at no additional charge. The Customer is also eligible to purchase the Custom Feature Package as defined in Section 4.20.3. The Customer will also receive the first 100 telephone numbers (Individual Telephone Number (ITN) and Virtual Telephone Number (VTN)) per service location at no charge. Additional ITNs will be charged as described in Section 5.4. Additional VTNs will be charged as described in Section 5.5.
